UPDATED INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

The Board held a public hearing on July 7, 2010 to provide the public an opportunity to comment on this regulation. During this hearing, the Board received comments from the public both in writing and in testimony. The Board considered all written and oral comments before it. The Board discussed the comments received and determined they wished to amend the State

Responsibility Area (SRA) Classification System Guidelines (Guidelines) referenced in 14 CCR 1220 rules offered at the hearing. The amendments to the Guidelines include adding review of periodic SRA maps modifications by local planning departments. The Board directed staff during the July 7, 2010 hearing to provide potential changes to the regulatory language to the public in a 15-day notice pursuant to GC § 11346.8(c). The Board may adopt any one individual proposed change, a selected group of the proposed changes, or all of the proposed changes. The means of identifying the proposed changes are below.

MODIFICATIONS TO TEXT OF PROPOSED REGULATION

The regulatory text in 14 CCR 1220 is modified to change the potential adoption date of the Guidelines to October 6, 2010.

Two amendments are made to the State Responsibility Area (SRA) Classification System Guidelines (Guidelines) referenced in 14 CCR 1220. Both amendments add review of the periodic SRA maps modifications by local planning departments. The additional of review by local government planning departments was in response to requests by the Regional Council of Rural Counties. The amendments are intended to provide additional local government participation during the initial stages of the SRA map change process. The following are the proposed amendments:

Page 2 of SRA Classification System Guidelines:

The field evaluation is accomplished at the Unit or Contract County. This evaluation identifies lands that may warrant reclassification. When a Unit/ Contract County staff proposes a SRA to LRA (Local Responsibility Area) or LRA to SRA change, they should consult with staff from the local fire agencies that will be affected by the change. Following the 2010 SRA map update, local agency consultation shall include contacting both the fire agencies and planning departments. Any area so identified is documented and forwarded for Regional review (second level).
